CONSENT TO CHIROPRACTIC CARE

Congratulations for choosing the safest and most natural health care program ever conceived: Chiropractic. This painless, logical, and effective approach to health has been serving everyday people for over 100 years. It is licensed in every state, and in many countries as well. Chiropractic has the least chance of side effects of any other type of health care. Mild headaches and muscles soreness may sometimes occur.

Let's look at a few statistics about possible serious side effects:

The #1 cause of death in the US is from correctly and incorrectly prescribed pharmaceutical drugs. (CDC, FDA, NIH sites, also Gary Null: Death By Medicine)

Stroke is one of the most common causes of death in the US. With people going to doctors all the time it is probable that many will have had a recent doctor visit. But causation is another matter entirely.

There is no absolutely known material risk of chiropractic care being greater than risks from medical treatment. In fact, when all the factors are taken together, deaths and injuries from a combination of medical mistakes and intentional drugs dwarf any injuries from chiropractic.

Risk of stroke from chiropractic? Virtually zero chance of stroke from chiropractic. The largest study ever done-the 2008

study in Canada-www.bellevuechiro.com/index.php?p=213660-looking at 12 million people over 9 years, showed that 53% of strokes had visited their MD within 30 days prior, while only 4% had visited their DC. No evidence of excess risk of stroke associated with chiropractic care.

In 2001 the Canadian Medical Association Journal found there is only a one-in-5.85-million risk that a cervical manipulation from an MD, PT, or DC would be followed by a stroke. Author David Cassidy, a professor of epidemiology at the University of Toronto said patients had already damaged the artery before seeking help from either a medical doctor or a chiropractor, and then the stroke occurred after the visit.

Speaking of risks associated with chiropractic, we should look also at the risk associated with NOT GETTING adjusted. This risk was one of the 4 components of risk in the Association of Chiropractic Colleges guidelines on informed consent in 2008. Disc degeneration, loss of mobility, loss of overall tone, decreased quality of life-these are real risks of the untreated spine as time goes by.

Doctors of Chiropractic who use manual therapy techniques are required to advise patients that there are or may be some risks associated with such treatment. In particular you should note:

- a) While rare, some patients may experience short term aggravation of symptoms, rib fractures or muscle and ligament strains or sprains as a result of manual therapy techniques;
- b) There are reported cases of stroke associated with many common neck movements including adjustments of the upper cervical spine. Present medical and scientific evidence does not establish a definite cause and *effect* relationship between upper cervical spine adjustment and the occurrence of stroke. Furthermore, the apparent association is noted very infrequently. However, you are being warned of this possible association because stroke sometimes causes serious neurological impairment, and may on rare occasion result in injuries including paralysis. The possibility of such injuries resulting from upper cervical spinal adjustment is extremely remote;
- c) There is rare reported cases of disc injuries following cervical and lumbar spinal adjustments or chiropractic treatment. Chiropractic treatment, including spinal adjustment, has been the subject of government reports and multi-disciplinary studies conducted over many years and has demonstrated to be effective treatment for many neck and back conditions involving pain, numbness, muscle spam, loss of mobility, headaches and other similar symptoms. Chiropractic care contributes to your overall well being. The risk of injuries or complications from chiropractic treatment is substantially lower than that associated with many medical or other treatments, medications, and procedures given for the same treatments.

I acknowledge the nature and purpose of chiropractic treatment in general and my treatment in particular (including spinal adjustment) as well as the contents of this Consent. I consent to the chiropractic treatments offered or recommended to me by my chiropractor, including spinal adjustment. I intend this consent to apply to all my present and future chiropractic care.

I further grant a contractual lien to SOCC with respect to my charges, applicable to all payers, however, I understand that nothing in this agreement shall be construed as an election by SOCC to claim protection under any statutory lien law. For the purposes of this agreement, "benefits" shall include, but shall not be limited to, proceeds from any settlement, judgment, or verdict, as well as any process relating to commercial health or group insurance, disability benefits, worker's compensation benefits, medical payments benefits, personal injury protection, lost wages benefits, lost services benefits, no-fault coverage, uninsured motorist coverage, third-party liability distributions, malpractice proceeds, attorney retainer agreements, and any other benefits or proceeds payable to me for the purposes stated herein, regardless of whether such proceeds are related to my charges or not.

I further agree that, in the event a payer refuses to pay SOCC, I herein assign, insofar as permitted by law, all of my rights, remedies, and benefits to SOCC to extent of my charges, as well as any and all causes of action that I might have against such payer, to prosecute such causes of action either in my name or in the Office's name, and to settle or otherwise resolve such causes of action as the office sees fit.

In the event that I retain one or more attorneys to represent me in this matter, I will direct each attorney to issue a letter of protection to this office regarding my charges. I authorize this office to release any information regarding my treatment or pertinent to my case(s) to all payers as defined above to facilitate collection under this Agreement. I hereby direct this office to file a copy of this agreement, together with any applicable charges, with any or all payers, regardless of whether a claim has been established with said payers. Personal Financial Policy

The doctors and staff at South OC Chiropractic are excited to have you as a patient. Please allow us to introduce our office policies to you in order for us to accept you as a Personal injury patient.

Please read the following options for billing and re-imburement of your care here in our office. Please ask us if you have any questions regarding the following questions:

- _____ Option 1 A personal auto policy that has medical payment coverage in excess of \$2500
- _____ Option 2 A personal health insurance coverage that will cover the cost of your care.
- _____ Option 3 Have an attorney retained to represent your interest and will guarantee payment of your chiropractic bill once your treatment has been completed
- _____ Option 4 Pay for your care at time of services rendered.

***A majority of patients will be able to take advantage of using a combination of the first three options. If you require help retaining an attorney please let your doctor know and he will be happy to help you. It costs the same for a good or a bad attorney. We know the good ones!**

Please understand it is against our office policy to accept a personal injury case where the only source of payment for our care is through third party insurance carriers. Third party refers to insurance coverage carried by someone other than yourself. For example, the insurance of the owner of the other vehicle involved in an accident.

It is our experience that your best interests are served by reporting your accident to your insurance carrier (which is a requirement for us to accept your personal injury case). You pay your insurance premium on a monthly basis and in some cases for years without even using it. Be sure to let your insurance carrier know you have had an accident and want to make a claim so we can take care of your financial needs in regards to you care.

_____ Initials

In some cases, your insurance carrier will attempt to have you only pursue the other party's insurance (third party insurance) for re-imburement of your care. Let your insurance know that you have been paying for month after month to take care of your needs if at all possible.

I _____ understand the financial policy of South OC Chiropractic. I would like to use the options checked above. I understand that I am ultimately responsible to pay for my care. I will provide all the information that is necessary to make a claim for my care. If at any time there is a change with any of the options above, I will immediately notify South OC Chiropractic to make alternate arrangements.

Understanding Insurance after your Accident

Our office is here to help during these challenging times after an accident which is why we want to take a moment to explain your options after an accident. Determining insurance coverage after a car accident can be a difficult challenge because not only do you have to stress about getting your car fixed but many times you are in pain and frustrated by the process of seeking treatment.

Our office will perform a FREE insurance verification to determine your benefits and assist you in the process. This will help to determine the best route to take because we want to try our hardest to make sure that there is No out-of-pocket expense for you after an accident.

Does your Health Insurance have coverage?

Typically, your health insurance will assist with payment after we have sent medical bills to the auto-insurance. Every Californian is required to carry car insurance and most of these plans will have medical coverage associated with them to take care of your treatment after an accident. Some auto-insurance will require the office to send in claims initially to health insurance for a denial letter (i.e. Mercury) then charges will be re-submitted for payment to the auto insurance provider. This will all be determined during our Free insurance verification in the office.

Does my Auto insurance have a role in this process if the accident was not my fault?

Every individual who drives is required to carry auto insurance in California. The easiest and most stress-free route to have your treatment covered is to send it to your auto insurance and have them take care of the charges, which they will later be refunded by the auto insurance of the individual who was at fault. This does NOT have any negative effect on your insurance if you are not at fault and being a policy holder with your insurance carrier makes it much easier for you and our office to communicate with them about your needs and care in our office. This allows you to receive chiropractic care, massage, acupuncture, etc. with No out-of-pocket cost after an accident and requires little effort on your part because our office can communicate directly with the insurance company on your behalf.

What role does 3rd party Auto insurance (aka the person at faults insurance) have with my treatment?

The individual at fault for the accident is ultimately responsible for payment and having their insurance refund treatment cost to your insurance company. However, the 3rd party insurance adjuster has one specific job after their insured is responsible for an accident. That is to close out the case and have you sign off on liability for the cheapest amount possible. This often leads to dishonest tactics such as them telling the victims of accidents inaccurate information such as, "you must pay for treatment out of pocket, then will be reimbursed at the end of care." Or they make statements minimizing the effects of the accident even though these claims adjusters have no medical training.

Many of these insurance carriers are publicly traded companies and their goals are driven by profits over people. When we contact the insurance of the individual responsible for the accident many times the claims adjusters will not give us any necessary information to help you with your care. This is because they want the person who was hit by their insured to be stuck with the numerous phone calls and hassle of getting their car fixed and treatment paid for. When our office contacts them on your behalf they typically offer little to no information because they state that they have no liability to our office. Therefore, the patient will need to contact them directly

for resolution of the matter. This is done for two reasons. Number one is our office is well trained in dealing with insurance matters after an accident, so they seek to misinform or set more favorable settlement terms for themselves with the victim in the accident and number two is the more work they create for the accident victim the more quickly the individual will seek to close out the claim.

It is a widespread practice over the past several years for these insurance companies to offer a low offer of \$500 to \$1000 to sign off on liability for the accident, but they won't tell you that you are now 100% liable for any future medical costs after this accident and if a doctor determines you need further testing then it could cost you thousands of dollars out of pocket. This is why it is always a good idea to consult your doctor or attorney before signing any insurance documents to make sure that what you are signing is in your best interest. These dishonest practices are why our office will try to avoid dealing with 3rd party insurance after an accident so we can provide the necessary care after your accident with the least amount of stress and work on your part as possible. If it is a 100% necessary that you require us to bill the 3rd party insurance carrier then it is highly recommended that you be represented by an attorney to avoid them from taking advantage of you during this vulnerable time. If you need a referral to an honest reputable attorney our office can assist you with finding one that will not cost you anything out of pocket because they only take a percentage of the settlement payment they obtain from the insurance for you.

Our #1 goal is to make sure we take the best care of you possible during this challenging time. This includes trying to keep your hard-earned money where it belongs, in your pocket. We appreciate your co-operation with our office policies which allow us to offer the best quality care available. If you have any questions please feel free to discuss this with your doctor or our office billing specialist.
